

GOLD CUP POINT SYSTEM

First, it's important to understand that the "Gold Cup Point System" is a season long point system, stands by itself and is not part of the daily "game" being played. The "Gold Cup Point System" is designed to reward league members for season long superior golf performance and is roughly based upon the Stableford scoring system. Gold Cup Points will be awarded on each hole played based upon the golfer's "net" score for that hole as follows:

Double Bogie or worse - One point deduction
Bogie – No points
Par - One point
Birdie - Three points
Eagle - Six points
Albatross or better – Ten Points

At the end of the season the **sum of each golfer's top 10 weekly Gold Point** scores performances will determine the **player's** standing in the Gold Cup race.

How to track on Score card Scores are double checked for total gross and total gold cup points by the league administrator. (Optional – Scores for a golfing group (foursome, threesome or twosome) may be recorded on one score card. Gold Cup Point scores may be noted by placing a small number for each point earned in the score box for the respective hole. e.g. A golfer achieving a net birdie on a hole would receive small three in scoring area "Gold Cup Points." Minus Gold Point scores shall be noted by placing a "-1" in the Gold Cup scoring area of the card.
